

# Metro Denver Nature Alliance Stakeholder Convening

Protecting nature. Preserving life.™

December 17, 2019 @ 9:00 am - 12:00 pm  
The Nature Conservancy, Denver -- 3rd Floor Conference Room  
[3575 Ringsby Ct, Denver, CO 80216](https://www.google.com/maps/place/3575+Ringsby+Ct,+Denver,+CO+80216)

## Logistics

There is plenty of free parking in the FLIGHT lots to the north of the building, recognizable by the large BOA and FLIGHT logos on the facade. Upon entering, head up the stairs or elevator and continue to the large conference room at the end of the hall on the 3rd floor.

## Purpose

Metro DNA's semi-annual Stakeholder Convening is an opportunity for partners and friends to get together and network, learn, and co-create collaborative projects. At this gathering we are focused on hearing from YOU on successes during the past year and collaborative project opportunities moving into 2020.

## Agenda

**0900-0915 Welcome + Introductions + Recognition.** Partners and friends, please introduce yourselves at your tables. Metro DNA leadership and the CU Boulder MENV Capstone Team will introduce themselves and the morning's agenda.

**0915-1000 Co-Creating a Regional Vision for People + Nature.** This interactive session will summarize the work of our 2019 CU Boulder Masters of the Environment Capstone Team, placing it in context of our shared vision of a thriving region for people + nature, and exploring your current and desired future contributions. Discussion questions:

- What top THREE projects, programs, or accomplishments from 2019 would you like to highlight?
- What are your top THREE priority projects, programs, or activities looking ahead to 2020?

**1000-1015 Recognition + Networking Break.** Enjoy a snack, courtesy of Metro DNA and our host, The Nature Conservancy, and free time with colleagues.

**1015-1100 Identifying Affinity + Opportunities for Collaboration.** Please find a seat at a NEW table with NEW colleagues for a discussion building on the first session and identifying shared priorities for collaborative action. Discussion questions:

- What priorities are emerging for collaborative projects?
- How do you want to contribute and organize around these ideas (committees, working groups, task forces, workshops, ongoing dialog, time-limited campaigns, funding, etc.)?

**1100-1115 Sharing Out + Transition**

**1115-1200 Working Groups.** Now is our time to dig in to YOUR great ideas for 2020 collaborative projects and begin to flesh out an action plan for 2020.

**1200-1400 Lunch @ Comal**
